This booklet serves as your contract with the Computing Department at East Tennessee State University. The requirements outlined here are the ones you will need to complete in order to graduate with a degree in Computing from ETSU.

********SAVE THIS BOOKLET********

Bring this booklet with you to each required advising session to prepare for the next semester. If you have any questions, please ask your advisor.

An updated list of majors and their assigned advisors will be posted on the department’s web site (http://www.cs.etsu.edu) during the two weeks preceding registration each semester.
Bachelor of Science in Computing with concentrations in:

*Computer Science (CS)*
*Information Systems (IS)* and
*Information Technology (IT)*

The three concentrations share a common computing core of courses that provides a strong background in programming, design, computer organization, database management, networking, security, and software engineering. All concentrations require a probability and statistics course and a discrete mathematics course. The concentrations emphasize practical skills needed to succeed in careers in computing, including technical skills, written and oral communication, project management, and teamwork. Graduates work throughout the region and nation at highly competitive salaries and in a wide variety of industries. In addition, many of our graduates go on to further studies, including the department’s masters programs.

**COMPUTER SCIENCE (CS) CONCENTRATION** – The CS concentration is designed for students who wish to apply their knowledge to the development of systems level software programs. These applications include but are not limited to: real-time graphics simulations, distributed systems, and operating systems. It will also be an asset for those students who are planning for graduate work in computer science. The CS concentration supplements the computing core curriculum with courses in data structures, algorithms, computer architecture, and operating systems. The concentration also requires additional hours of mathematics and science, including the calculus sequence required of mathematics majors and one additional lab science.

**INFORMATION SYSTEMS (IS) CONCENTRATION** - The IS concentration supplements the core curriculum with courses in Enterprise Resource Planning and enterprise system implementation and programming. Students select an emphasis in accountancy or management and explore the application of information systems in business process definition and execution. This concentration is designed for students who wish to apply their knowledge in Enterprise Resource Planning, enterprise system implementation, other business-oriented computing or within their emphasis area, and for those who plan graduate work in information systems or business administration.

**INFORMATION TECHNOLOGY (IT) CONCENTRATION** - The IT concentration supplements the core curriculum with courses in web development, database and system administration, and human computer interaction. This concentration is designed for students who wish to apply their knowledge in web development, database or system administration, and for those who plan graduate work in information technology.
GRADUATION REQUIREMENTS

To earn a Bachelor of Science degree in Computing, you must:

- complete 124 semester hours
- meet all requirements of the General Education core (see general education checklist), including the General Education Proficiency Requirements (see below)
- meet all requirements specific to your concentration (CS, IS, or IT)
- attain a grade point average of 2.5 or better overall AND within the major
- achieve a grade of “B-” or better in CSCI 1250 and a “C-“ or better in all other major requirements (see checklist for your concentration) and achieve a grade of “C” or better in the required freshman English courses.

Proficiency/Intensive Course Requirements

In addition to the 6 credit hours of writing and 3 credit hours of oral communication courses required for the general education requirements, courses that are designated as writing intensive, oral intensives and technology intensive must be taken as follows.

WRITING In addition to the general education writing courses, students must complete a minimum of four writing-intensive (WI) courses. At least two of these courses must be in the student’s major or minor. At least two of the four courses must be at the 3000-4000 level.

ORAL COMMUNICATION In addition to the general education oral communication course, students must complete a minimum of two oral communication intensive (OCI) courses. At least one of these courses must be in the student’s major or minor.

USING INFORMATION TECHNOLOGY Students must demonstrate a working knowledge of word-processing, spreadsheets, electronic communication, and online searches during their first calendar year of enrollment or prior to accumulating 30 semester credits at ETSU. This requirement may be met by passing the UIT proficiency exam or by successfully completing CSCI 1100, Using Information Technology. Students may register to take the UIT proficiency exam at http://www.etsu.edu/uit or by calling the Using Information Technology office at (423) 439-6964. Registration for summer proficiency testing begins the first week in May. After the UIT proficiency exam (or CSCI 1100) is successfully completed, students must complete a minimum of one using information technology-intensive (UITI) course in the student’s major or minor.

NOTE: Transfer students with an associate degree or with 50 or more transferable semester hours are required to complete only two writing-intensive courses, one oral communication-intensive course, and one using information technology-intensive course.

ADVISEMENT IS REQUIRED FOR ALL COMPUTING MAJORS

Advisement is required for all Computing majors from the time they enter the major until graduation. Computing majors must schedule a meeting with their assigned advisor prior to registering each semester. Only then will the “registration hold” be removed by the advisor so that the student may register. All new Computing majors are assigned to Mr. Todd Franklin for their first two semesters and then they are reassigned to another faculty advisor. An updated list of majors and their assigned advisors will be posted on the department’s web site (http://www.cs.etsu.edu/) during the two weeks preceding registration each semester.
2013-2014 General Education Requirements for Computing Majors (41 credit hours)

WRITING: 6 credits (both) (Grade must be a C or better)
- ENGL 1010 Critical Reading & Exp. Writing (3)
- ENGL 1020 Critical Thinking & Argument (3)

ORAL COMMUNICATION: 3 credits (select one)
- SPCH 1300 General Speech (3) [O]
- SPCH 2300 Public Speaking (3) [O]
- SPCH 2320 Argumentation & Debate (3) [O] (Recommended)
(Note: one Speech course cannot satisfy both the general education requirement and an oral-intensive requirement)

FINE ARTS: 3 credits (select one)
- ARTH 2010 Art History Survey I (3)
- ARTH 2020 Art History Survey II (3)
- DANC 3500 Dance as Human Experience (3)
- HUMT 2310 Humanities I (to 1600) (3)
- HUMT 2320 Humanities II (1600 - ) (3)
- MUSC 1030 Introduction to Music (3)
- MUSC 1035 History of Jazz (3)
- THEA 1030 Introduction to Theater (3)

SOCIAL/BEHAVIORAL SCIENCES: 6 credits (select two)
- ANTH 1240 Introduction to Cultural Anthropology (3)
- ECON 1050 Econ & Soc (3) or ECON 2210 Macroeconomics (3)*
- ECON 2220 Principles of Microeconomics (3)
- GEOG 1012 Introduction to Cultural Geography (3)
- HDAL 2310 Developmental Lifespan Psychology (3)
- PSCI 1110 Political Life (3) [W]/[O]
- PSCI 1120 Introduction to American Government (3)
- PSYC 1310 Introduction to Psychology (3)
- SOCI 1020 Introduction to Sociology (3)
- SOCI 2020 Social Problems (3) [W]
- SRVL 1020 Introduction to Service Learning (3) [W]/[O]
- WMST 2010 Introduction to Women's Studies (3) [W]

NATURAL SCIENCES: 8 credits (select one full sequence from the following options - For example if you take ASTR 1010, you must take ASTR 1020 to complete the sequence.)
- ASTR 1010 and ASTR 1020 Astronomy I and II
- BIOL 1110/1111 and BIOL 1120/1121 Biology for Science Majors Sequence
- CHEM 1110/1111 and CHEM 1120/1121 General Chemistry Sequence
- GEOG 1110 and GEOG 1120 Earth Science: Weather & Climate, Landforms & Processes
- GEOL 1040/1041 and GEOL 1050 Physical and Historical Geology
- HSCI 2010/2011 and HSCI 2020/2021 Anatomy & Physiology I and II
- PHYS 2110 and PHYS 2120 Technical Physics I and II – Calculus Based

NOTE: that the following courses are for non-science majors and do not count for Computing majors: BIOL 1010/1011, BIOL 1020/1021, CHEM 1000, CHEM 1030, PHYS 1030

* Choose ECON 2210 if concentration is Information Systems
Catalog Year 2013-2014

Major Requirements

Computing Core Courses (33 Hours)
(Courses are not listed in order to be taken)
☐ CSCI 1250 Intro. to Computer Science I (4) *[T]*
☐ CSCI 1260 Intro. to Computer Science II (4)
☐ CSCI 1400 PC Setup and Maintenance (1)
☐ CSCI 1510 Student in University (3) *[W]**
☐ CSCI 2020 Fundamentals of Database (3) *[T]*
☐ CSCI 2150 Computer Organization (3)
☐ CSCI 3250 Software Engineering I (3) *[W]*
☐ CSCI 3350 Software Engineering II (3) *[O]*
☐ CSCI 3400 Networking Fundamentals (3) *[T]*
☐ CSCI 3500 Information Security and Assurance (3)
☐ MATH 1530 Probability & Statistics – satisfies
  Gen. Ed. requirement
☐ CSCI 1900 Math for Computer Science (3)

Free Electives: (5 hours)
☐ ____________________________________________
☐ ____________________________________________

*You must complete CSCI 1250 with a grade of “B-“ or Better

** If, for any reason, you do not take or do not pass CSCI 1510, you must take another approved major elective in its place.

*** At least one major elective (CSCI) must be selected at the 3XXX/4XXX level. Please note that CSCI 1100, CSCI 1101, CSCI 1102, CSCI 1200, and Cooperative Education and Internship courses DO NOT count towards Major Electives.
Catalog Year 2013-2014

Free Electives (3-4 Hours)

☐ __________________________

*You must complete CSCI 1250 with a grade of “B-“ or Better

** If, for any reason, you do not take or do not pass CSCI 1510, you must take another approved major elective in its place.

*** At least one major elective (CSCI) must be selected at the 3XXX/4XXX level. Please note that CSCI 1100, CSCI 1101, CSCI 1102, CSCI 1200, and Cooperative Education and Internship courses DO NOT count towards Major Electives.

Information Systems Emphasis Areas

All students in the Information Systems Concentration must complete one of the following two emphases. These are intended to prepare the student to function effectively as an IS professional in a specific business area.

- Management Emphasis
  - ECON 2210 - Principles of Economics I (3)****
  - ACCT 2010 - Principles of Accounting I (3)
  - MGMT 3000 - Organizational Behavior & Mgmt (3)
  - MGMT 4020 - Organizational Theory & Dev (3)
  - MGMT 4030 – Current Mgmt Issues (3)

- Accountancy Emphasis
  - ECON 2210 - Principles of Economics I (3)****
  - ACCT 2010 - Principles of Accounting I (3)
  - ACCT 2020 - Principles of Accounting II (3)
  - ACCT 3010 - Financial Accounting I (3)
  - ACCT 3110 - Management Accountancy (3)
  - Must make a “C” or better in each course.

****ECON 2210 should be taken as one of the Social/Behavioral Science classes required in General Education Requirement
